TLPA Membership Dues Policy *(Final acceptance of membership is based upon approval by TLPA's Board of Directors.)*

- TLPA dues cover all vehicles affiliated with the member organization, which means that any passenger vehicle receiving any service from the organization (company, cooperative, association, radio service) is covered. This includes independents and/or associates even if they own their own vehicles and/or their own permits and simply purchase dispatch, insurance or other service from the member organization.
- It is required that all of the diverse entities that are affiliated with the management team and which are located within 75 miles of the member organization, are covered by TLPA dues, because nearly all major fleets and many smaller fleets either operate under multiple trade names and/or different corporate structures (typically for marketing, regulatory or liability reasons). The organization can have each affiliated transportation service join TLPA independently or they can amalgamate them into one large member—possibly paying maximum dues.
- A member organization may choose to join only one TLPA division, as long as the largest portion of the total fleet (taxicab, limousine or paratransit) joins first. So, if you have 300 taxicabs, 187 limousines and 167 paratransit vehicles, the taxicabs must join and then the limousine and paratransit vehicles may join.
